

LAYER PALLETIZER

OPTIONAL

- Layer sheet dispenser and relevant magazine
- Pallet magazine capacity 10/18 pallets
- Pallet conveyor

The layer palletizer have been developed to meet all palletising requirements for cartons, bundles and crates. Their design combines components and modular parts to fulfil any layout requirement and to ensure quick collation changeover times. The machine has a mobile platform of either sheet metal or rollers which can split into two and a roller top where the layer is made up. It is capable of processing unstable products. Collation changeover and new collation set ups are by means of an operator touchscreen.

Technical data	PS 60	PS 80	PS 90	PS 120
Production packs/h	1200	1500	1800	2100
Set up power	12 Kw	16 Kw	22 Kw	25 Kw
Air consumption	150 l./min.		200 l./min.	200 l./min.
Voltage	380 Volt			
Pallet height max	2100
